

HDMI Switcher Series

User Manual

Model : HKM41E

4 x 1 HDMI KVM Multiviewer & Seamless Switcher

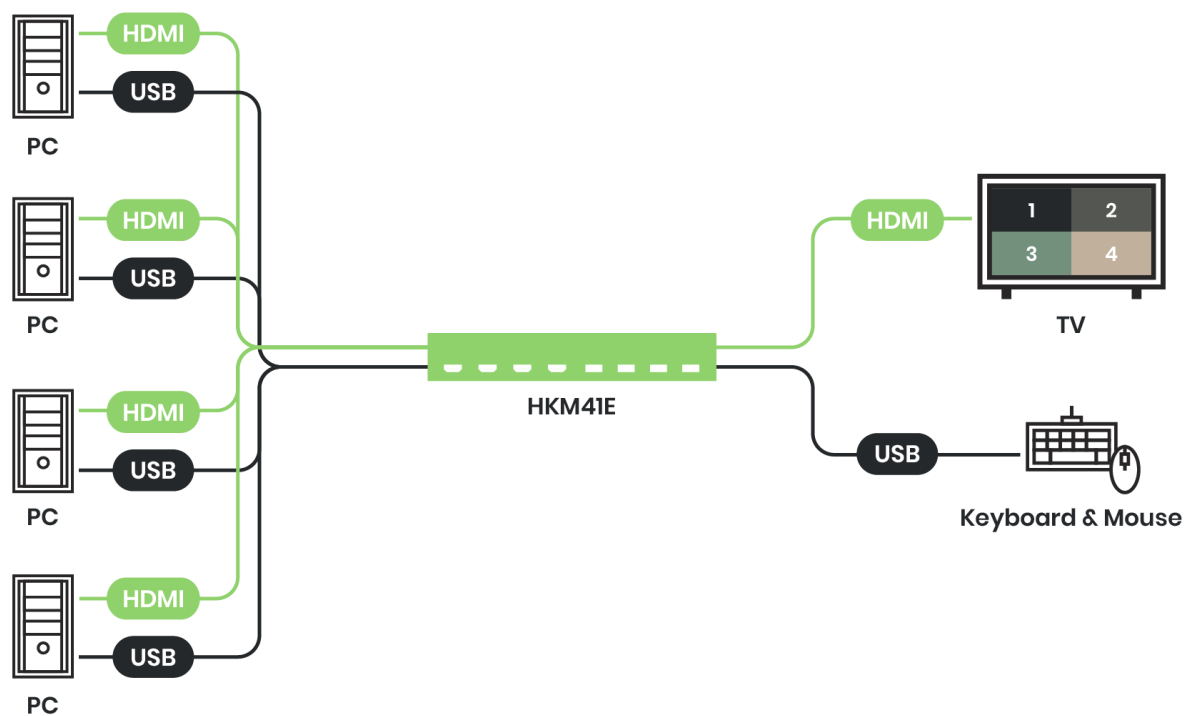

Introduction

HKM41E is a 4 input HDMI automatic KVM switcher that supports resolution up to 1080p@60Hz 4:4:4. This switcher is designed to control four HDMI sources (PC/NVR/DVR) from an HDMI display, a keyboard and a mouse. It also supports Multiview function which can reproduce all four images in one screen.

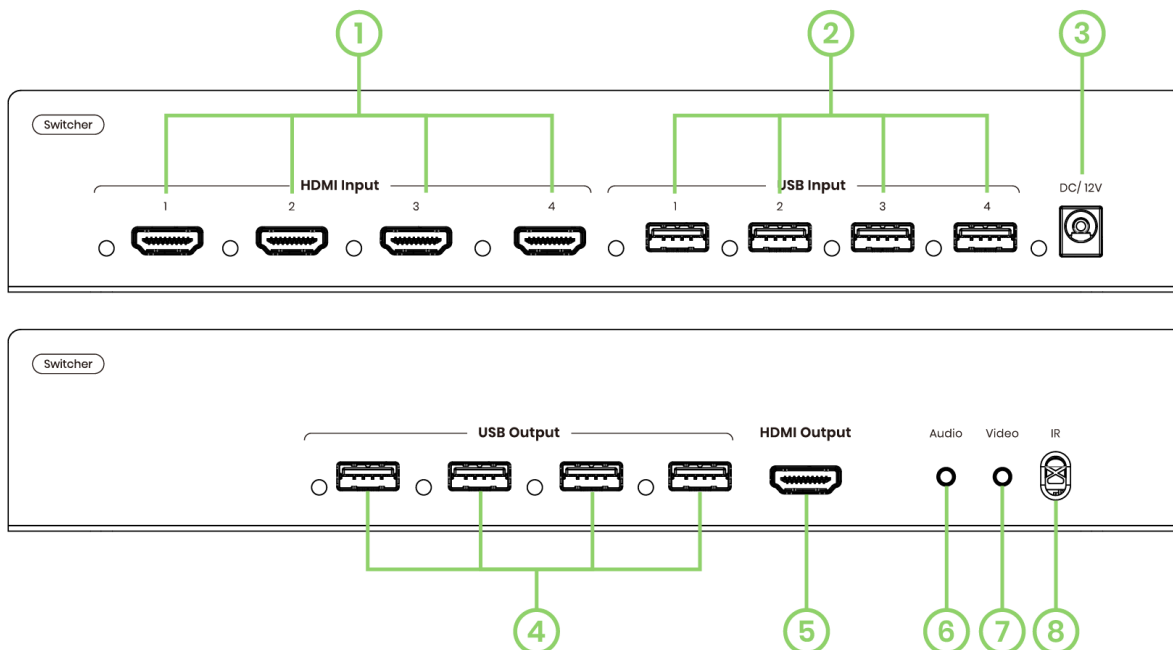

Features

- Resolution up to 1080p@60Hz 4:4:4.
- Supports Multiview function, providing different working modes.
- Controlled by panel buttons, keyboard/mouse, IR remote.
- Support mouse roaming, using one display and one keyboard/mouse to control four PC. Just move the mouse across the multi-viewer border, and the mouse immediately switches to the source and take control of the device.

Installation view

Panel view

No	Interface	Description
1	HDMI Input	To input up to 4 HDMI sources
2	USB Input	To connect up to 4 USB sources
3	DC/12V	To input a DC 12V power
4	USB Output	To connect a keyboard & a mouse
5	HDMI Output	To connect an HDMI display
6	Audio	To mute/unmute audio or select an audio source (see page 6)
7	Video	To select a video mode
8	IR	To receive an IR control signal

LED Indication

Interface	LED Status	Description
Power	Green On	Power on
	Green Off	Power off
HDMI Input 1~4	Blue On	HDMI source detected
	Blue Off	No HDMI source
USB Input 1~4	Blue On	Corresponding PC host has been selected for KVM control (single-view)
		When set to control 4 PCs at the same time (4 LEDs on at the same time)
		When mouse position is in the corresponding PC host screen while in mouse roaming mode/multi-view (the USB LED would only be on one at a time, depending on which source the mouse currently on)
	Blue Off	No PC host has been selected for KVM control (single-view) Mouse position is not in the corresponding PC host screen while in mouse roaming mode (multi-view)
USB Output 1~4	Blue On	USB device detected (mouse/keyboard)
	Blue Off	USB device not connected

Mode 1	Mute/ unmute Input 1 audio
Mode 2	Mute/ unmute Input 2 audio
Mode 3	Mute/ unmute Input 3 audio
Mode 4	Mute/ unmute Input 4 audio
Mode 5	Select Input 1/ 2/ 3/ 4/ mute
Mode 6	Select Input 1/ 2/ 3/ 4/ mute
Mode 7	Select Input 1 / 2/ 3/ 4/ mute
Mode 8	Select Input 1/ 2/ mute
Mode 9	Select Input 3/ 4/ mute

Caution

- This product is designed for indoor applications. If it is desired for outdoor use, please install additional equipment for waterproof protection and surge protectors to prevent damages caused by lightning.
- Do not put anything on the power and system cables; place them where they cannot be stepped on. Please be sure there is nothing resting on any cables.
- Avoid using this product close to water places, or near high temperature devices such as radiators, stoves, etc.
- Shut down the power supply and unplugged all equipment immediately if:
 - water or any kind of liquid has been spilled into the product;
 - the product has been damaged by external force;
 - the product does not operate normally as this manual indicates;
 - Please contact us for further repair if above conditions happen.
- Using certified Premium HDMI cable to transfer high-resolution video is recommended.
- Seamless switching is supported only when switching between Mode 1 ~ 4.
- There is no constraint border when using mouse roaming function.
- When input video resolution is 800 x 600, output picture will be with black border on the left and right side of the screen.
- The sequence of the HDMI input should be matched along with the USB input (HDMI 1 corresponding with HDMI 1 source, etc.)
- While setting up HKM41E, please use the keyboard to get full access of all functions.
- When using DVR/NVRs as sources, must switch to Relative Mouse Position Mode, in this mode HKM41E doesn't support mouse roaming.
- When using PCs as sources, must switch to Absolute Mouse Position Mode in this mode HKM41E supports mouse roaming.
- The mouse roaming could not work under Relative Mouse Position Mode, so using DVR/NVR as sources could not active mouse roaming, but it can still be controlled by using keyboard hot keys.
- If HKM41E uses both PCs and NVR/DVRs as sources, the connected mouse/keyboard won't operate normally due to the restrictions of Absolute/Relative Mouse Position Modes.

What's in the Package

No	Item	Qty
1	HKM41E	x1
2	IR01 (IR Remote)	x1
3	12V 2A Power Adapter	x1
4	Accessory	x1

Specification

ITEM NO.	HKM41E
Support
